# Energy certificate data APIs

Learn about the APIs we offer for software developers and how you can connect to them.

## Data available

Use the APIs to get data on:

- Domestic Energy Performance Certificates (EPCs)
- Non-domestic Energy Performance Certificates (EPCs) and recommendation reports
- Display Energy Certificates (DECs) and recommendation reports for public buildings

## Technical documentation

View [technical documentation \(/api-technical-documentation/\)](/api-technical-documentation/) for the APIs.

## My Bearer token

## Open API specification

Our APIs use [OpenAPI Specification \(https://swagger.io/specification/\)](https://swagger.io/specification/) (OAS) - previously known as 'Swagger' - to describe the API's interface.

The OAS file for each API contains general documentation as well as specific details of endpoints, including request and response headers and bodies. We use the OAS file to generate the API specifications in our API catalogue. You can also download the OAS file for an API - go to the API specification and look for the "Get this specification in OAS format" button.

You can use a tool such as [Swagger Codegen \(https://swagger.io/tools/swagger-codegen/\)](https://swagger.io/tools/swagger-codegen/) to generate stubs, test harnesses and SDKs in your favourite programming language. Our OAS files use OAS version 3.

## Conditions of use

Find out more about [Licensing restrictions \(/guidance/licensing-restrictions/\)](/guidance/licensing-restrictions/) and [Data protection \(/guidance/data-protection-requirements/\)](/guidance/data-protection-requirements/).

## Get help or give feedback

[Visit the guidance page \(/guidance\)](#) for information on:

- what the data contains
- data methodology and limitations
- using the developer API
- licensing restrictions

For enquiries about the data, please contact the Ministry of Housing, Communities and Local Government (MHCLG)

[mhclg.digital-services@communities.gov.uk](mailto:mhclg.digital-services@communities.gov.uk)
